

## Features

- Non-linting sponge, due to interconnected pore structure
- Fast water absorption
- Ideal for use on high precision components, including magnetic heads and printed circuit boards

## RS PRO ESD Sponge

RS Stock No.: 266-4331

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

The RS PRO ESD cleaning sponge is non-linting, due to interconnected pore structure. This non-linting sponge supports fast water absorption while remaining resistant to solvents. The sponge is suitable for use on high precision component, including magnetic heads and printed circuit boards.

## General Specifications

Type	Sponge
Average Pore Diameter	60 µm
Hot Water Resistance	+60 to +80°C
Porosity	88%
Size	125 x 85 x 35 mm
