

## Datasheet

# Anti-Static Heat Seal ESD-Safe Bag

RS Stock number [287-7739](#)

### Description

- Shielding bags are designed to protect ESD sensitive components and assemblies from all harmful aspects of static electricity. Their Faraday cage design ensures ESD safety.
- Critical metal layer is sandwiched between static-dissipative layers to protect the static shield.
- Surface resistivity of the metal layer is less than  $10^2$  OHMS per square to shield against static charges.
- Static-dissipative polyethylene inner layer is amine-free, polycarbonate compatible and octanoic acid –free.

### Specifications

- |                        |               |
|------------------------|---------------|
| • Closure Type         | • Heat Seal   |
| • Height               | • 8in         |
| • Material Properties  | • Anti-Static |
| • Quantity per Package | • 100 Each    |
| • Width                | • 6in         |
