

## Datasheet

# Magnetic Socket Insert Socket Insert

RS Stock number 374-9023

## Description

**Magnetic socket inserts for socket wrenches, SW10-SW19**

- For use in existing socket bits (insertable or removable bits), whether hex or double-hex
- Magnet holds the screw but does not touch the socket wrench
- Socket wrench remains unmagnetised on removal
- Magnet can be inserted and removed as needed
- Solves the problem of assembly in difficult locations
- Clever supplement to existing ratchet socket sets

## Features:

Sub Type: Magnetic Socket Insert  
Type: Insert
