RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Introducing the range of RS PRO Flooring Screws, a high-quality, compact fastener solution for applications where a flush finish is required when joining wooden surfaces together without the risk of splitting, like floorboards. Each fastener is made from steel with a black phosphate coating, making them much more cost-effective than their stainless-steel counterparts, while offering a high level of protection against surface rust and oxidisation.

Applications:

- Carpentry construction like decking, railings and small frames
- Metalwork and metal framing
- Building work and construction
- DIY
