

Hot take:
**You can bid farewell
to bitter beverages.**

A lot of things can cause coffee to taste bitter—your water shouldn't be one of them. You work hard to make sure your customers always enjoy a great cup of coffee. Your employees know what they're doing, you use the right grind and brew at the right temperature for the perfect amount of time. But you could be doing everything right and still end up with bitter-tasting coffee if you're not using filtered water. Help ensure your coffee is consistently delicious with 3M™ Foodservice Water Filtration Products.

Coffee breaks your customers can count on.

Reduce particles in your water that can hurt the consistency of your coffee and shorten the service life of your equipment with 3M™ Foodservice Water Filtration Products.

We’ve long been regarded as an industry leader in the design, manufacturing and marketing of water filtration products that help provide solutions for today’s ever-changing water quality concerns.

Our products are simple, effective and easy-to-install solutions for commercial foodservice applications. We’re proud of our systems that are designed to meet the volume, water clarity and maintenance expectations of our customers.

The Challenge:

Scale build-up, excess particulates and excess chlorine can lead to downtime and shorter service life of your equipment. Plus, excess chlorine and organic residue can cause beverages to taste bitter. These problems could lead to inconsistent service and beverage quality—and lost business.

The Solution:

3M™ Water Filtration Products can help maintain coffee and tea beverage clarity, consistency and full flavor along with efficient brewing machine operations.

A single cartridge can deliver

56,000+
8-oz cups of coffee

Coffee and Hot Tea Water Filtration Systems

Coffee and Tea				
Model/Part	Replacement Cartridge	Flow Rate (GPM)	Capacity (Gals)	Reduction Claims

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
