RS PRO LAN Test Equipment of Distance to Fault

RS Stock No.: 136-8577

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This tester can check UTP, STP, Ethernet, CAT5E, 6, 6A and Coaxial cables, determining the continuity and wiring of the cable pattern. With a pull out remote terminator, there are 8 remote IDs available and enough memory for 8 test results. A simple press of button switches between modes, which features LAN, TEL, COAX, TONE and LENGTH. Using TDR enables quick and easy measurement and testing of the length and distance of the cable.
