Mains Test Screwdrivers

Multi purpose mains test screwdriver

[RS Stock No. 451-8971](#)

110 to 250 volt versatile multi function mains test screwdriver, including high visible 3 led, 2.2m -1/4 & 600k-1/4 watt resistances and 2 x 1.5 volt (lr-41) batteries slotted, blade tip - 3.5 x 0.5 mm. It fits to maintenance / repair and service engineers for bulb and fuse, continuity, short circuit, cable tracking. Microwave leak detection, non-contact current detection, polarity checks +/-

- Chrome vanadium steel for screwdriver blade, polycarbonates shaft & brass end cap.
- Chrome plated screwdriver blade and end cap, transparency plastic handle.
- Heat treated to 38 – 48HRC (blade)
- Overall length: 135 mm
- Net weight: 27 grams

Technical specification:

Voltage test direct contact: 110 - 250v a.c./0 ~ 250v d.c.

Voltage test non contact: 110 - 600 volt a.c.

Continuity test : 0 - 50m ohm

Polarity test : 1.2 to 36 v d.c.

Microwave leakage detection: > 5mW/cm square

Safety barrier: 16 m ohm resistor
