

MAGNA 100 HEAVY DUTY DEGREASER

Magna 100 is an alkaline-type well suited for tough cleaning jobs. It emulsifies, absorbs and floats away the toughest of greases and oils, also penetrating gums and dyes, and loosening stubborn soil accumulation which is otherwise unaffected by caustics and dangerous solvents.

NATO STOCK NUMBER: 6850-32-076-9722

Cleaning & Maintenance Chemicals

DESCRIPTION

Magna 100 is primarily an alkaline-type detergent that brings a new kind of chemistry to many "knotty" cleaning jobs. Magna 100 is biodegradable, it emulsifies, absorbs and floats away the toughest of greases and oils. It penetrates gums and dyes. It also loosens stubborn soil accumulation that are unaffected by caustics and dangerous solvents.

AREAS OF USE

Magna 100 is effective in removing marking ink from metal sheets, degreasing of metals before magna fluxing, cleaning grease and oil from small machinery parts, removing gum, soaps and other compounds from lathes, milling machines, punch presses, die-cutting, grinders and other metal working machines. It effectively removes grease, oil, exhaust accumulation and carbon stains that are found on aircraft engine areas and other ferrous surfaces.

AVAILABLE PACKAGING

25 Liters / 200 Liters
