# RS PRO IP67 Power Connectors – M35

The RS PRO series of waterproof power connectors are ruggedly built connectors sealed to an IP67 rating with a push-lock coupling which requires the series coupling tool to remove. This provides a more secure connection ideal for use when electrical safety or tampering may be an issue. The M35 range of connectors are designed with 3 gold plated contacts rated to 41A at 600V and are available in panel to cable or cable to cable variations.

## Features & Benefits:

- IP67
- Push Lock Mating
- Tool Required for disconnection
- 600V
- 41A
