

Technical Data Sheet

RS Pro Conical Sealed Foam Swabs

RS 1771-1333 consist of cotton fibres which are tightly wrapped around a wooden handle. because of the tightly wrapped head, there is very little linting. These swabs have excellent absorbency, as well as high strength; especially when saturated with water. This swab is designed for cleaning applications where absorbency is critical.

Specifications:

- Head Material: Cotton
- Head width: 4.8 mm
- Head Length: 16 mm
- Handle Material: Wood
- Handle Width: 2.0 mm

Features:

- Tightly wrapped head construction
- High strength, durable head for rigorous cleaning
- Low linting
- High absorbency capacity and rate
- Good solvent compatibility

Packaging

100 swabs per bag
