

## BLF 202 - BASIC - heats up to 100kg

**New**

### BETEX BLF 202 low frequency induction heaters 120/230V - 50/60Hz - **BASIC series**

- Heating can be done in time or temperature mode
- Smart electronics ensure optimal heating and efficient use of power
- Robuste design for working in industrial environments
- Controlled heating method
- Reduced energy consumption
- Including 2 yokes, 20, 50 mm
- Temperature setting upto 240°C / 464°F
- Incl. 1 magnetic temperature probe
- Automatic demagnetization, better than 2A/cm
- Keyboard for easy operation
- Acoustic signal at the end of each heating cycle
- Temperature hold
- Time setting in minutes/seconds
- Incl. service kit and CE-manual
- 3 years warranty on the electronic unit
- Including packing material

### Technical specifications BLF 202

Output kVA	1.8 - 3.7
Voltage / Current	120V / 15A
Voltage / Current	230V / 16A
Frequency Hz	50-60
Max. weight bearing kg	100
Max. temperature	240°C / 464°F
Max. OD Ø mm	500
Magnetic temperature probe(s)	1
Heating methods:	
- Time	yes
- Temperature	yes
- Temperature or time	no
- Temperature or speed	no
Automatic demagnetization	yes
Weight heater kg (excl yokes)	31
Dimensions mm	702 x 256 x 392

### Items

No.	Item	Quantity
4202220-CE	Induction heater BETEX BLF 202 230V incl. 2 yokes-CE	1,00
