- Ratchet mechanism ensures that full crimp cycle is achieved
- Ratchet release mechanism
- Adjustable crimp force
- Crimping cavities marked with coloured wire dot for easy identification
- Ergonomically designed, non-slip handles for comfortable use
- Life span of 50000 cycles

RS PRO Plier Crimping Tool for Insulated Terminals

RS Stock No.: 399-2019

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO a durable, reliable hand operated precision ratchet crimping tool made from high-quality hardened steel alloy for crimping insulated crimp terminals. This hand tool consists of two handles with a non-slip ergonomic design for comfortable use, a ratchet mechanism, and a die assembly. The die assembly features 3 crimping profiles marked with a red, blue and yellow dot that correspond to the wire size being crimped for easy identification.
