

FEATURES

- Four different terminal sizes
- Leverage for heavy-duty applications
- Ergonomic grip

RS PRO Plier Crimping Tool for Uninsulated Terminals

RS Stock No.: 125-1967

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From the trusted RS PRO brand this cable crimping tool is designed for use with non-insulated terminals and copper lugs onto appropriate wires and cables. A must wherever specialist connectors are needed, this tool is designed to handle different set sizes of terminals and is ideal for production work and maintenance applications alike. It has long arms to provide leverage, meaning crimping terminals is easy and efficient, saving you time and effort. The crimper also features an ergonomic firm-grip handle with finger guards for the comfort and control you need.

General Specifications

Crimp Tool Type	Plier
