RS PRO Clamp Set

RS Stock No.: 713-3772

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO this inch steel clamp set is an essential piece of equipment. It consists of 58 pieces that can be used for a variety of clamping tasks which fit a variety of machines, including most milling and boring machines. These clamping kits are ideal to use when you are faced with odd shaped items such as castings.

All parts of the clamp set are black oxide finished and come supplied in a steel rack, ideal for either mounting on a machine or a wall or left free standing.

This clamp set comprises of flange nuts, coupling nuts, clamping studs, T Slot nuts and Step blocks (2 pieces).
