

Product information

Special Rim Cleaner

PI 37/11/13/2023

Description

Special cleaner with practical dirt indicator. For intensive and gentle cleaning of aluminum and steel rims. Easily removes brake abrasion as well as other dirt. Reduces the amount of stubborn dirt that returns and, when used regularly, guarantees a radiant shine and long service life of the rims. Highly biodegradable and acid-free.

Properties

- does not contain acids
- very powerful wetting effect
- biologically degradable
- gentle cleaning
- excellent cleaning effect

Technical data

Odor	characteristic
Base	surfactants
Form	liquid
Density at 20 °C	1,09 g/cm ³
Color / appearance	yellow
pH value	7-8

Available pack sizes

1 l Spray bottle plastic	21533
	F-GB-ARAB
20 l Canister plastic	21737
	D-GB

Our information is based on thorough research and may be considered reliable, although not legally binding.

Areas of application

For all rim designs. Do not use on repainted rims.

Application

1. Shake well before use. 2. Then evenly spray Rim Cleaner Special on the dirty rims. Note for the 1 l spray bottle: If the trigger is pulled quickly it emits a broad and extensive spray pattern, while pulling it slowly results in a concentrated spray pattern. 3. Allow to act for 5 – 7 min depending on the degree of contamination, but do not allow to dry. 4. For removing very stubborn dirt, rework with a sponge or brush. 5. The cleaning process can be checked visually by watching for a change of color; the optimum effect is achieved when completely purple. 6. Thoroughly rinse the rims with a high-pressure cleaner. Note: Do not use on hot rims or in direct sunlight! Test material compatibility on sensitive surfaces in an inconspicuous place before applying!
