

6 1/4" Angled Electricians' Shears 95 05 20 US

- The 45° angled shears provides natural extension of your hand and offers a more comfortable work position
- In addition to comfort, the angle allows for better sight lines when working in confined spaces – being able to see what you are cutting is critical in getting the job done quickly, accurately and efficiently
- Precision-ground stainless steel blades with fine serrations offer a clean and non-slip cut
- Two end ferrule crimping areas – one for 10 - 20 AWG and one for 4 - 8 AWG
- Includes opening spring and lock for easy storage and transport
- Additional wire cutter located in front of the slide lock

Leave feedback

- Tether attachment point can be used with KNIPEX Tethered Tools System
- Durable belt pouch (00 19 75 LE) sold separately
- Cutting edges made from stainless steel, hardness of cutting edges 56 HRC
- Handles with multi-component grips, fiberglass reinforced plastic

Technical details

Part Number	95 05 20 US
UPC	843221028619
Country of Origin	Taiwan
Length	6 1/4"
Width	3 1/8"
Height	1 3/16"
Weight	0.42 lbs.
1000 Volt Insulated	No
ESD Indicator	No
Spring Loaded	Yes
Material Type	Stainless steel cutting edges
Handle Type	Multi-component, fiberglass reinforced plastic

Surface Finish	Polished
Crimping Positions	2
Joint Type	Bolted
Angled Head	45 degrees
Color	Red/Blue
Blade Length	1 1/4"
Crimping Capacity	10 - 20 AWG (small crimper) and 4 - 8 AWG (large crimper) AWG
Reach	does not contain SVHC
RoHS	not applicable
