## Product Description

Move heavier equipment like furniture or workstation elements safely with this handy 100 mm swivel castor. With its full 360° motion, it's easy to manoeuvre. It's also capable of carrying loads up to 125 kg.

Thanks to its rectangular fixing place, this castor has a quick and easy mounting option for added stability when transporting heavier loads. Its polypropylene (PP) tyres offer increased durability and shock resistance, while pressed-steel construction and plain bore bearing give it a longer operating life. The white tyres won't mark hard floors and perform well on softer surfaces.
