- Breaking Range and Utilisation Category gG

RS PRO NH TYPE FUSE-LINKS WITH CENTRED TAG BLADES

RS Stock No.: 2213676, 2213677

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Centered Tag Fuses

Product Description

415 Volt NH Industrial Fuse-Links with knife blade contacts are for use in industrial installations. Type "LSPN/DIN" are used for protection of conductors.

NH fuse-links are manufactured from a rectangular ceramic casing surrounded by a cover plate with a metal blade style terminal on each end. As a result of blown fuse-link, they must be replaced with a new fuse with the same characteristics. The fuse element inside the casing is connected to the cover plate / blade terminals.

Also available: Ranges of Fuse-Links for motor circuit and semi-conductor protection

General Specifications

Current Rating	50A
Voltage Rating	415V ac
Fuse Standard	IEC 60269-2
Overall Length	78.5 mm
Body Width	21 mm
Body Length	54 mm

Approvals

Standards Met	IEC 60269-2
