

Datasheet

RS PRO USB 3.0 to HDMI Adapter

Stock number: 2206505

EN

The RS-PRO USB 3.0 male to HDMI female adapter is designed to let you connect a HDMI monitor to a computer that has a USB 3 output.

This adapter can be used with Mirror mode, Primary mode or Extend mode to extend you current Laptop or desktop monitor.

Our adapter can support resolutions up to 1600 x 1200 for standard monitors or 1080p. This adapter also comes with an LED indicator. Green light indicates the adapter is running at USB 3.0 speed and a red light indicates it is running at USB 2.0 speeds.
