

FEATURES

- 11-way commoning block in clear colour
- Screw down termination
- Designed for commoning together of same potential cables of 2 to 10 AWG
- Current rated for 170A
- Voltage rated for 450V

RS PRO, Slotted Din Rail, 1000mm x 32mm x 15mm

RS Stock No.: 467-393

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Introducing the RS PRO G Type DIN rail, designed to be used for mounting a variety of electrical and industrial equipment, especially for support of heavier or higher-powered components. The TS32 rail offers slots, which offer flexibility for the mounting application the rail is being used for. Additionally, the rail has been manufactured from steel with good chemical resistance, which means it is suitable for use even in extreme environments without compromising on the quality and performance of the product. This RS PRO DIN rail offers a secure attachment for enclosures and is versatile enough to use in a wide range of applications.

General Specifications

Compatibility	G
DIN Rail Type	TS32 Slotted
Applications	DIN rail terminal blocks, Automation and control devices, Power supplies, Robotics, Plug-in relays, Panel meters, I/O devices

Mechanical Specifications

Material	Steel
Length	1000 mm
Width	32 mm
Height	15 mm
