

Bishamon

Caster Cover

Upper Position (445mm)

Lower position (290mm)

Adjustable Foot pedal

Foot pedal is adjustable into two positions for operator comfort with the upper position providing more travel per stroke.

Dual Brake System

The brake system feature engages the brake of both steering casters in any position with one motion.

Adjustable Speed Improves Safety When Lowering/ Simple Auto Fast Traverse Improves Efficiency

With no load (or a light load), lifting is twice as fast as when there is a load
