RS Pro Single Sided Foam Tape

Product Details

Foam Sealing Tapes

EPDM = ethylene propylene diene monomer

Adhesive backed foam sealing strip with a choice of 2 styles; crown and oval

Fully synthetic foam made of EPDM rubber which is age resistant and chemically neutral against the most common used lacquers and plastics

Resistant to most caustic chemicals, moisture, UV radiation and ozone

Ideal for sealing, dampening and cushioning e.g. to cushion enclosures, dust sealing in switchgear, cabinets etc.

Operating temperature up to 50°C

Products are supplied in 2 x twin reels. Each twin reel has two parallel strips length of 16.5m

Crown has a 3 point profile

Foam-, Single and Double Sided Tapes

Specifications

Width	8mm
Length	16.5m
Thickness	3mm
Application	Cushioning, Damping, Sealing
Adhesive Material	Rubber
Maximum Operating Temperature	+50°C
Operating Temperature Range	Maximum of +50 °C
