

Datasheet

RS PRO PC 3.5mm Headset with Mic

Stock No: 2013520

Features

- 1 x 3.5mm jack plug
- Stereo headset
- Built-in inline microphone on cable
- High quality 40mm drivers
- 2.3M cable
- Excellent audio range from 20 to 20,000 Hz
- Omni directional microphone
- Comfortable padded ear cushions, reducing pressure when worn for periods of time.
- End call button (works on Windows 7,8 and 10 / MacOS X 10.9 or higher).

Instructions

1, Simply insert the 3.5mm jack into the relevant 3.5mm jack plug on your computer, this is normally black and shows a headset icon.

2, You will now be ready to use your headset, the volume levels can be easily adjusted within the settings on your computer. Within Microsoft Windows you can find the sound settings in the bottom right corner near the clock and also within the control panel.

3, There is a button on the cable, simply press this to end the call you are on.

Detailed Specifications

- Speaker diameter : 40mm
- Sensitivity : 112dB/mW
- Impedance : 32 ohm
- Headset plug type: Straight 3.5mm

Safety and Health Messages

Warning:

Failure to properly set up, use, and care for this product can increase the risk of serious injury or death, or damage to the device or devices. Read this guide and keep all printed guides for future reference.

Health Warning

Use of electronic input devices may be linked to serious injuries or disorders. When using a computer, as with many activities, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. However, if you experience symptoms such as persistent or recurring discomfort, pain, throbbing, aching, tingling, numbness, burning sensation, or stiffness, DO NOT IGNORE THESE WARNING SIGNS. PROMPTLY SEE A QUALIFIED HEALTH PROFESSIONAL, even if symptoms occur when you are not working at your computer. Symptoms like these can be associated with painful and sometimes permanently disabling injuries or disorders of the nerves, muscles, tendons, or other parts of the body. These musculoskeletal disorders (MSDs) include carpal tunnel syndrome, tendonitis, tenosynovitis, and other conditions.

While researchers are not yet able to answer many questions about MSDs, there is general agreement that many factors may be linked to their occurrence, including: overall health, stress and how one copes with it, medical and physical conditions, and how a person positions and uses their body during work and other activities (including use of a keyboard or mouse). The amount of time a person performs an activity may also be a factor. If you have questions about how your own lifestyle, activities, or medical, or physical condition may be related to MSDs, see a qualified health professional.

All Devices

Do Not Attempt Repairs

Do not attempt to take apart, open, service, or modify the hardware device or power supply. Doing so could present the risk of electric shock or other hazard. Any evidence of any attempt to open and/or modify the device, including any peeling, puncturing, or removal of any of the labels, will void the Warranty.

Choking Hazard

This device may contain small parts which may be a choking hazard to children under 3. Keep small parts away from children.

Usage and Cleaning

Use in accordance with these instructions:

- Do not use near any heat sources.
- Only use attachments/accessories specified
- Clean only with dry cloth.
- Do not allow this product to become wet. To reduce the risk of fire or shock, do not expose this product to rain or other types of moisture.

Statement of Compliance with EU Directives

Hereby, Ceratech Accuratus Limited declares that this product is in compliance with the essential requirements and other relevant provisions of Directives, 2015/863, EN 50581:2012 and 2011/65/EU, as applicable.

Company: Ceratech Accuratus Limited

Address: Ceratech House, Unit 3 Grove Park, Mill Lane, Alton, Hampshire, GU34 2QG. UK

Product Disposal Instructions

WEEE Directive

The symbol shown here and on the product means that the product is classed as Electrical or Electronic Equipment and should not be disposed with other household or commercial water at the end of its working life.

The waste of Electrical and Electronic Equipment (WEEE) Directive (2002/96/EC) has been put in place to recycle products using best available recovery and recycling methods to minimise the impact on the environment and to treat any hazardous substances and avoid the increasing landfill.

Product disposal instructions for residential users:

When you have no further use for it, please remove any batteries and dispose of them and the product as per your local authority's recycling processes. For more information please contact your local authority or the retailer where the item was purchased.

Product disposal instructions for business users:

Business users should use their own contracted disposal agreements with regards to following WEEE procedures so that this product is not mixed with other commercial waste.

Technical Support

This product is 'plug and play', however if you do experience problems setting up and need support you can contact the technical team at www.rs-components.com

Thankyou for purchasing our product.
