RS Stock No.: 243-1850

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO 19" Brushed Cable Entry Panels

Introducing the excellent quality Brushed Cable Entry Panels from RS PRO. These 19" server cabinet cable entry panels are ideal for keeping your cabinet neat and tidy. When used in an environment with servers, the brush seal solutions allow reduced airflow and help stop front to back air movement within the cabinet, protecting your servers from warm air from the rear of the cabinet. Brush seals also filter out dust and larger particulates. Thermal protection and visual screening are additional benefits. RS PRO brush cable entry panels also protect cables against wear due to sharp edges of the cut-out. All models are finished in grey colour, they are highly reliable and excellent quality.
