

WPB1100

High Density Polyethylene Bulk Garbage Bin

Optional: Foot-operated lid opener.

Authorized Distributor/ Agent:

Description

Manufactured according to the European standard – EN840. Made from environmental friendly recyclable High-Density Polyethylene (HDPE). Able to absorb shocks, resists common chemicals and easy to maintain.

Mounted on 4 solid rubber tyres (include 2 brakes) swivel castor wheels for quiet, smooth, reliable operation. Molded with ergonomic handles, WPB1100 is easy and safe to manoeuvre. Equipped with sides lifting pins for added stability during lifting.

With foot-operated lid opener, lifting the lid is no longer hard work. Operators need not touch the lid anymore, while handling foodstuffs or soiled wastes. Closed lid prevent pests such as birds, cats & rodents from accessing the food waste. Thus, keeping bacteria and diseases at bay. Conforming to National Environment Agency (NEA) requirements.
