

FEATURES

- 100% moulded polyurethanes
- Easy peel-off application
- Non-marking
- Shock dampening
- Superior abrasion resistance

RS PRO Cylindrical Anti-Vibration Mount 0 Compression Load 12.7mm dia. PUR

RS Stock No.: 173-5960

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO cylindrical anti-vibration mount has a 12.7mm diameter and is made from PUR material. It is circular flat-topped and non-skid. It provides stability and prevents movement when in use. This product is adhesive backed. Rubber anti-vibration mount is a crucial component in most types of heavy machinery and equipment, which help dampen noise levels and vibration frequency while safeguarding fragile components from external vibrations.
