RS PRO Fused Test Lead Kit, 4mm Straight Plug

Stock No: 125-3732

Product Details

These heavy duty fused test leads offer a high degree of protection to the user when measuring on high energy circuits up to 1000V. Both the red and black probes are fused to enhance the safety of the user. The leads are made with 1.2 metres double insulated silicone cable incorporating a wear indicator. Supplied with 500mA/1000V/50kA fast acting high capacity fuses. Replacement Part No 161-1530

RS Accessories Include:-

125-3738 Acrew In 1000V Crocodile Clips, 262-7770 Screw In Thin Spikes, 262-7786 Lantern Fronts

Specification

| | |
|--------------------------------|--------------------|
| Voltage: | 1000 Volts AC & DC |
| Current Rating: | 500 mA |
| Lead Length: | 1.2 m |
| Safety Category: | CAT III |
| Minimum Operating Temperature: | -20°C |
| Maximum Operating Temperature: | +70°C |
