RS PRO Interchangeable Parallel; Phillips Screwdriver Set 6 Piece

RS Stock No.: 541-6539

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO, this impact driver has interchangeable flathead and crosshead bits for great versatility. The ergonomic impact driver has a smooth left and right driving action that makes tightening and loosening screws quicker and easier. For stuck screws, force can be applied to the base of the impact screwdriver for greater turning torque than can be generated by hand alone.

General Specifications

Screwdriver Type	Interchangeable
Number of Pieces	6
