RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Our RS Pro tri-rated cable has been designed to be used within electrical equipment, most commonly for wiring items that include power switchgear. The cable is also great for internal connections within rectifier equipment, motor starters, and controllers. Our RS PRO tri-rated cable range features highly durable wires that are made with flexible copper and are encased with a HR PVC (heat resistant polyvinyl chloride) insulation. The high maximum operating temperature of 105°C allows them to be used with a wide variety of applications such as electrical cabinets. RS PRO tri-rated cables are available in a variety of different coloured HR PVC sheaths including blue, black, red, brown, green, yellow and many more, to accommodate for a number of applications
