

ANTI-FOG FACE SHIELD

HEAD & FACE PROTECTION

WORKSafe Face Shields are made of Polyethylene Terephthalate (PET) plastic, making it scratch-resistant and durable. Furthermore, the face shield is clearer, providing better vision for wearers.

Usage information:

Stretch the elastic band and rest the foam on your forehead. The band should be well secured around the head.

Please take note of the following:

This face shield will only protect you from non-corrosive liquids and dust. It is not strong enough to guard you against any form of impact risk. Do not use the product under a high heat environment e.g. open flames and sparks etc. Always use as directed.
