Product Description

RS PRO single coloured cable ties are a type of fastener used for holding items together, most commonly electrical cables or wires. These cable ties are made from Nylon 66 (also known as nylon 6.6) and are a one-piece, self-locking fastener that functions like straps to keep cables tidy. They are available in lengths of 100 mm, 165 mm and 203 mm and 2.5 mm widths with a choice of 5 colours (red, green, blue, yellow and orange). The coloured ties enable colour coding of cables or other components.
