Anodised Aluminium Instrument Case, Black, 125 x 81.4 x 40mm

RS Stock number 4686743

Features

Description: The enclosure cases have been developed to offer a robust and precision, off the shelf unit in which to mount electrical circuitry.

The range is manufactured from a hollow aluminium extrusion.

The internal construction includes a series of printed circuit board mounting slots providing a degree of flexibility on board design. The slots have been developed to accept a standard 3/4 Eurocard PCB.

The external surface of the case has been designed with a comprehensive series of fins to aid heat dissipation.

'T' slots have been provided in the cases to accept an M4 half nut offering easy mounting

Material

Body: Manufactured from a hollow aluminium extrusion, Finish - Hard black anodize after being machined to length

End covers: Machined from 1.5 mm thick aluminium plate, Finish - Hard black anodize

Cover Screws: Self tapping screw - pan head No.6 X 3/8" mild steel, Finish - Zinc plated

Dimensions:
