

FEATURES

- M8 hex head set screws
- Length of 30mm
- Solid brass construction
- Plain finish
- Hex head and drive

Plain Brass Hex M8 x 30mm Set Screw

RS Stock No.: 483-2435

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

These set screws help keep potentially moving parts locked in place. You'd find them securing a gear to its shaft, for example. They're essential components in engineering, product design and repair applications.

These set screws have M8 threading through the entire length of the main body. Part of the RS PRO range, the screws undergo strict testing to ensure quality and durability. They conform to Electrostatic Control Standards ANSI/ESD S20.20:2014 and BS EN 61340-5-1:2007, preventing damage due to electrostatic discharge. Plus, they're hex headed, meaning they can be tightened easily with a standard spanner.

General Specifications

Thread Size	M8
Material	Brass
Finish	Plain
Screw Type	Set Screw
Head Shape	Hex
Drive Type	Hex
Thread Type	Metric
Corrosion Resistant	Yes
Application	Fasteners and fixings; Machine tooling and repair; Security guarding; Electronic applications; Automotive industry

Mechanical Specifications

Length	30mm
