

Product Specification – RS Components

PRODUCT CODE: PPSEC03RS

PRODUCT DESCRIPTION: "Hydroline" Regulated & Aerated Shower Head Chrome

RS CODE: 7845500

1) MATERIAL / APPEARANCE

ABS Chrome Plated Finish

2) PRODUCT DIMENSIONS (INCLUDING TOLERANCES)

L = 325mm, W = 140mm, H = 80mm & 0.1875 Kg

3) INSTALLATION INSTRUCTIONS AND DETAILS

(1) Ensure that water is isolated at the shower control valve to prevent unnecessary loss of water. (2) Loosen the shower coupling located on the outlet of the shower hose (3) Unscrew coupling and retain the rubber washer, the same washer maybe reused. (4) Carefully connect the "Hydroline" shower handset to the threaded coupling, taking care not to cross thread. For best results hand tighten first then test for leaks. Should additional tightening be required please use soft faced tools.

4) PACKAGING

LDPE Plastic clam and insert made from 100% recycled paper

5) OUTLINE OF PRODUCTION METHOD

Primary production method is extrusion

6) PRODUCT RATING

Use with: Flow rates over 10 litres per minute. With a combi or condensing boiler. Power Shower (some are wall mounted). Un-vented hot water systems. Pressurised cylinder. Don't use with: Gravity fed hot water – Tank fed with cylinder in your airing cupbo
