

## Features

- Synthetic resin bonded paper base
- DIN 41612 connection
- Dimensions of 160 x 100mm
- FR2 material grade
- Hole diameter of 1.02 mm

## RS PRO Prototyping board

RS Stock No.: 100-4340

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

The RS PRO Plain Boards – Metric and Imperial Pitch:  
 These boards offer total flexibility for the hard wiring of discrete components or the mounting of wire wrap sockets and pins and for the prototyping of analogue circuitry.

## General Specifications

Features: Metric Pitch	Ideal for hard wiring of discrete components
	For use with solder pins
	Total flexibility
	Compatible with DIN 41494 card frames
Features: Imperial Pitch	Compatible with DIN 41494 card frames
	Fibreglass material
	For use with solder pins or wire wrap DIP sockets
	DIN 41612 connector compatible
	Grid printed for component reference

### Plain boards - metric and imperial pitch

Board dimensions	Rows of holes	Hole matrix	Base material
100 x 160	34 x 64	2,5 x 2,5	SRBP

*Note: hole dia. 1,02mm*
