RS PRO 2m 8K Mini DisplayPort M- DisplayPort M Cable – Black – 5 Pack

RS Stock No.: 266-8483

RS Professionally Approved Products bring to you, professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RSPRO 2m 8K Mini DisplayPort to DisplayPort cable has a black PVC jack and an outer diameter of 5mm. The connectors have a gold flash covering to prevent corrosion.

Our cables are DisplayPort version 1.4 (HBR3) and can support up to 8K@60Hz, 4K@120Hz or with Multi Stream Transport (MST) they can display to multiple screens.

The connector hoods are also made of black PVC and have a strain relief to prevent the jacket splitting around the boot.

DisplayPort, commonly known as DP is a digital high-definition video connection which also can carries audio. Due to its bandwidth, DisplayPort cables are normally up to 5 metres long.

DisplayPort cables are very simple to use and are plug and play. Care must be taken when unplugging them to make sure that the latches have been released before pulling out the connector
