## RS PRO Swivel Tap Aerator

RS Stock No.: 784-5591

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

The RS PRO swivel tap aerator is an ingenious device designed to be installed onto the end of a tap to reduce water consumption by up to a massive 55%. With a pressure range of up to 10 bar and a built-in control regulator the aerator will save water and money while still maintaining a smooth flow through mixing air with the water stream. The result is a softer and more efficient flow without splashes.
