

Datasheet

RS Pro Clear Passivated, Zinc Steel Countersunk Thread-Forming Screw, 12mm Long

RS Stock No: **483-1280**

Product Details

RS Pro thread-forming screw measuring M4 x 12 mm, is made of steel with clear passivated, zinc finish. This countersunk head screw for metal having a tri-lobular cross-section is capable of forming or rolling a matching thread into the material into which they are installed. The screw is ideal for use with pre-drilled or punched holes in a wide range of ductile metals.

Features and Benefits

- Ideal for use with pre-drilled or punched holes in a wide range of ductile metals
- Case hardened carbon steel, bright zinc plated and passivated
- Supplied in bags of 100 and also available as kit of 250 assorted pan head screws
