RS PRO 14mm Centre Punch

RS Stock No.: 473-0711

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 14mm Centre Punch is a resilient and crack resistant centre punch for use in both wood working and metal working for marking the point where a drill or nail will be used through a simple indentation avoiding nail or drill drift. Constructed from Chrome Vanadium Steel the centre punch is strong, hardwearing and capable of taking a serious hammer impact. The tip has been surface ground and polished to prevent chipping and provide a clean indentation and the octagonal profile means a firm grip wet or dry.
