

FEATURES

- Fits neatly into the CalDensate unit
- Maximum performance
- Optimum flow rate

RS PRO Water Filter Cartridge

RS stock no: 894-6967

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO CalDensate cartridge has been specially designed to hold the maximum amount of calcium carbonate to ensure maximum condensate discharge. The cartridge has purpose designed holes which allow the flow of condensate without causing any blockages and forcing the boiler to shut down.

Purpose designed cartridge
Compatible with RS PRO Caldensate Neutraliser (RS stock no: 195-2211)
Life span of 12 months for any condensing boiler
Ensures that the maximum amount of calcium carbonate is held in the cartridge
Compact
Purposed designed holes
Ensures that the optimum flow rate is produced
Suitable for high temperatures
