RS PRO Hex Flange Screws

RS Stock No.: See Table Below

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Introducing the range of RS PRO Serrated Hex Flange Screws, a high-quality fastener solution for applications where a large bearing surface is required to evenly distribute a clamping force over an extended area. This makes them ideal for use with irregular or oversized holes like vehicle subframes. Each fastener is made from steel with a zinc coating, making them much more cost-effective than their stainless-steel counterparts, while offering a high level of protection against surface rust and oxidation.

Applications:

- Carpentry construction like decking, railings and small frames
- Metalwork and metal framing
- Building work and construction
- DIY
