

FEATURES

- Copper body material for high conductivity and easy crimping
- Tin plating for resistance to corrosion
- Added strength and excellent conductivity
- Vinyl insulation for electrical insulation and terminal protection
- Colour coded insulation for easy identification of terminal size
- Expanded insulation entry for easy wire insertion

RS PRO Insulated Ring Terminal, M8 (5/16) Stud Size, 4mm² to 6mm² Wire Size, Yellow

RS Stock No.: 267-3874

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO a high-quality insulated crimp ring terminal, also known as a ring connector or cable lug. Ring crimp terminals are used for connecting an electrical cable or wire to a stud or a post on an electrical component such as a battery terminal. This ring terminal is made from highly conductive copper and has a double crimp design with an internal copper sleeve. This internal copper sleeve strengthens the barrel, provides a robust and secure crimp and protects the wire against stress and high vibration. The ring terminal is then tin plated for maximum electrical conductivity and corrosion resistance

General Specifications

| Insulation | Insulated |
|---------------------|--|
| | |
| Insulation Material | Nylon |
| Colour | Yellow |
| Contact Material | Copper |
| Contact Plating | Tin |
| Stud Size | M8 (5/16) |
| Double Crimp | With copper sleeve on barrel |
| Application | Wide range of industries for connecting wires to electrical components. Applications include wiring in industrial control systems and industrial machines, automotive applications, communication equipment, power supplies and domestic appliances. |

Electrical Specifications

| Maximum Electrical Rating | 105°C 600V Max. | | | | |
|----------------------------|--------------------------|--|--|--|--|
| Maximum Electrical Current | 12 AWG: 35A, 10 AWG: 50A | | | | |

Mechanical Specifications

| Thickness | 1mm |
|-------------------------|-------|
| Overall Length | 34mm |
| Inner Ring Diameter | 8.4mm |
| Outer Ring Diameter | 15mm |
| Maximum Wire Size | 6mm^2 |
| Minimum Wire Size | 4mm^2 |
| Maximum Wire Size (AWG) | 10AWG |
| Minimum Wire Size (AWG) | 12AWG |

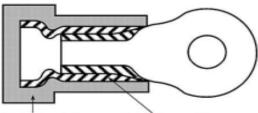

| Operation Environment Specification | S |
|--|-------|
| Maximum Operating Temperature | 150°C |
| maximum operating remperature | |
| | |

| Compliance/Certifications | UL |
|----------------------------------|----|

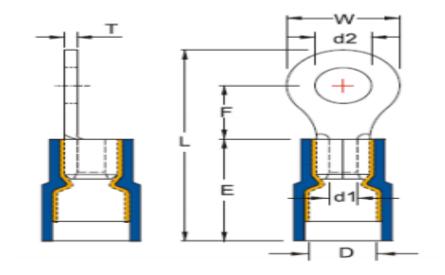

Ring Terminals

Nylon Insulation

Extra Copper Sleeve

Dimensions
