## RS Pro Transit Case

RS Stock No: **921-2750**

### Product Details

RS Pro transit case is a professional outdoor HDPE transit case, which is perfect for your storage and transportation needs. It is made from indestructible PP and is stackable, dustproof and waterproof, keeping all your equipment protected at all times. The case with ergonomic carry handle, features an automatic air pressure compensation valve and is suitable for use in temperatures from - 40 to + 80°C. The transit case comes fitted with egg foam in the lid and foam layers with individual inserts in the base. Deep drawn aluminium cases offering security and protection for any electronic, electrical, sensitive or fragile equipment. It incorporates a strong black soft anodised frame with integral high impact keylocks. An inner rail provides the opportunity for mounting a panel securely within the case enabling test and measurement, environmental equipment to be located by cutting the panel holes as required.
