

## Datasheet

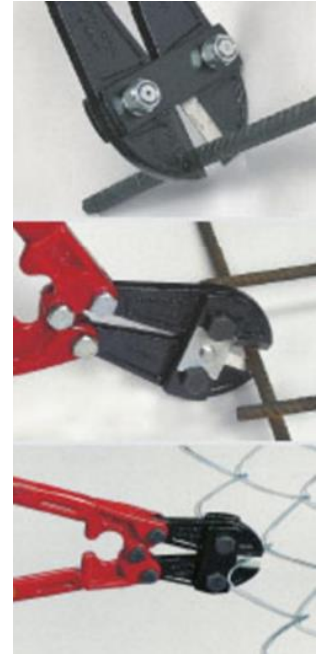

## RS Pro Bolt Cutters

RS Pro bolt cutters are designed for cutting rod, wire mesh, concrete form ties, cable and bolts with a quick and easy-to-use handle.

They feature drop forged, hand-treated jaws (HRC 54-58) made of hardened alloy steel, providing durability over time. RS Pro bolt cutters are precision adjustable via screws and their lever handles are cold drawn for additional strength.

**Features:**

- Steel shears
- Hardened steel bolts
- Hardened steel joints
- Cold drawn steel handles
- Ergonomic plastic grip

RS Part Number	Capacity (diameter)	Length (mm)	(kg)
<a href="#">771-9240</a>	Ø7	460	1.6
<a href="#">771-9237</a>	Ø10	660	2.3
<a href="#">771-9231</a>	Ø13	840	5.1
