Datasheet

RS Pro LED Reflector Bulb, BA9s, Blue, Single Chip, 10mm dia., 24 V ac/dc

RS Stock No: 212-519

RS Pro LED Indicator

RS Pro BA9s indicator lamps have a single chip LED with a built in reflector, optimising brightness and intensity while maintaining low energy consumption. The lamps are fitted with a convenient bayonet connector for quick and easy installation

Features and Benefits

- Single chip LED with reflector
- Life expectancy of 100000h
- 12, 24, 28, 48, 60V ac/dc and 130, 230V ac types available in range
- 230V ac types can also be used on 130V dc supplies
- 12, 24, 28V Centre base contact is anode for dc use and have an integral reverse polarity protection diode
- 48, 60V types polarity connections can be to either contact for dc use

Attribute	Value
Voltage Rating	24 V ac/dc
Light Output Colour	Blue
Intensity	490 mcd
Lamp Base	BA9s
Chip Type	Single Chip
Diameter	10mm
Length	24 mm
Peak Wavelength	470 nm
Current Rating	9 (dc) mA, 17 (dc) mA
Life Hours	100000h
