RS Pro Male Crimp D-sub Connector Contact, Gold, Tin Plated, 28 → 24 AWG

Product Details

RS High Density D Connector Solder and Crimp Contacts

A range of density and a half pin and socket crimp and solder contacts for use with high density D plug and socket connector housings (see stock numbers 481-459 and 481-465 typically). The recommended wire size for the 1.5 density crimp pin and socket contacts is 28 to 24 AWG and 22 AWG the maximum wire size range for the 1.5 density solder pot pin and socket contacts.

Note

For crimp pins use crimp tool [481-516](#)

Specifications:

Gender	Male
Contact Material	Copper Alloy
Contact Plating	Gold, Tin
Maximum Contact Resistance	12mΩ
Wire Size	28 → 24 AWG
Current Rating	5A
Termination Method	Crimp
