PACKER[®]

Packer Products offers you:

- Over 40 years Packer brand experience offering value for money packaging equipment
- Product demonstrations and trials
- Illustrated literature, CD's and videos for product promotion
- Regular product promotions
- Purpose-built warehouse holding comprehensive stocks, for same day shipments, directly to your customer under plain/your notes if required
- Individual chapters of the catalogue available in PDF upon request
- Full after sales service for your peace of mind. Our dedicated repair department maintains a comprehensive stock of spare parts for quick turnaround. Engineers are available for on-site service and maintenance contracts are negotiable upon request.

All operations are monitored regularly to maintain the position we hold as an ISO 9001:2008 registered company.

- > Priced per pack of 10

Precision made, durable Gummed Paper Tape dispensers from CYKLOP can produce measured lengths with optimum moistening to reduce tape waste and ensure the best seal. OPTIONAL ACCESSORIES such as the adaptor for jumbo tape rolls, print unit, foot pedal operation and trolley complete the versatility of the electronic machines.

Improve security and image using gummed paper tape and Cyklop dispensers

Lever operated measured length dispenser for gummed paper tape up to 100mm wide

- > Robustly constructed bench mounted machine with a 2 year warranty
- > Suitable for gummed paper tape, maximum 200mm roll diameter, wound gum in or out, plain or reinforced in widths from 20mm to 100mm
- > Dispenses from 100mm to 1100mm with two pre-select length guides
- > Adjustable water feed and tape guide weight to suit all grades of GPT
- > Trolley stand available to order
- > Weighs approx. 9.5kg

CODE	PK QTY	PK WGT
UNI-200-B6	1	10

Measured length electronic keypad dispenser for gummed paper tape up to 100mm wide

- > Bench mounted machine with 18 months warranty
- > Electronic dispenser suitable for gummed paper tape maximum 200mm roll diameter, in widths from 20mm to 100mm, wound gum in or out, plain or reinforced
- > 22 pre-set measured lengths from 100-1150mm with override. Buttons can recognise 2 different lengths for "H" sealing.
- > Adjustable water feed and heater for optimum moistening of tape and adjustable weight on tape guide to suit all grades of GPT
- > One machine is able to serve two operators and the optional foot pedal operated version available to order, allows "hands-free" working.
- > Accessories available to order include adaptor for larger tape rolls up to 300mm, encoder and trolley stand. A wide-bodied version available for tape widths from 50mm to 200mm
- > Weighs approx. 12kg.

CODE	PK QTY	PK WGT
C-25	1	13

Dispenser with photocell and electronic keypad for gummed paper tape up to 100mm wide

- > Bench mounted machine with 18 months warranty
- > Electronic dispenser suitable for printed gummed paper tape or labels, maximum 200mm roll diameter, wound gum in or out, plain or reinforced in pre-determined lengths from 10mm to 1150mm and widths from 20mm to 100mm
- > Integral photocell can read signals printed on tape to ensure the complete message or label is dispensed and bar codes are complete
- > Adjustable water feed and heater for optimum moistening of tape and adjustable weight on tape guide to suit all grades of GPT
- > One machine is able to serve two operators and the optional foot pedal version available to order, allows "hands-free" working.
- > Accessories available to order include adaptor for larger tape rolls up to 300mm and trolley stand.
- > Weight approx. 12kg.

Economy heat sealers

ECONOMY HEAT SEALERS for perfect sealing of PE/PP/PVC films up to 800 gauge in two layers with seal widths from 200mm up to 500mm. A heat sealer with a cutter can be used to trim or make bags from lay flat tubing when paired with a film unroller. A comprehensive range to suit every application and budget and produced to meet CE standard. Stainless steel bodied versions available to order on some models. Warranty is 12 months, excluding consumable parts.

Integrated cutter version available on all models

Economy impulse heat sealer 200mm x 2mm seal

Semi-auto heat sealers

SEMI-AUTO HEAT SEALERS for perfect sealing and cutting of PE/PP/PVC films. These timed MAGNETIC RELEASE heat sealers are available in seal widths of 330mm, 480mm, 680mm and 1000mm, complete with safety film cutter for bag making. The heat sealer has separate controls for sealing and cooling time, adjustable to allow the operator to produce a perfect 4mm seal every time. The seal can incorporate a code for product identification etc., in film up to 1000 gauge in two layers. Even more demanding applications can be met with options of double heating element and 8mm deep seal. Stainless steel bodied versions available. European made to CE standards with a twelve months warranty. Optional extras include film unrollers, work tables, stands and foot pedals, with electric foot pedal operation available to special order. Food quality and anti-static lay flat tubing is available from stock.

21 12mm glue guns & glue

Expertise gathered over 30 years enables us to offer a totally comprehensive range of HOT MELT GLUE GUNS & GLUE STICKS for LOW MELT and HOT MELT adhesives suitable for almost any application. A solid adhesive stick that is non-toxic, clean and easy to handle is heated in a lightweight hand held glue gun and applied molten to one surface to create an instantly secure bond.

Glue gun uses 12mm sticks operates from 100-230V

- > Ideal for home/hobby use, weighs only 230g
- > Dispenses up to 400g/hr
- > Blister packed with 4 glue sticks

CODE	P-150
PK QTY	1
PK WGT	0.47

Glue gun light industrial uses 12mm glue sticks operates from 100-230V

- > Light duty industrial tool, weighs only 230g
- > Dispenses 12mm hot melt up to 750g/hr
- > With "power-on" LED display

CODE	P-312
PK QTY	1

25 Bubble film

CLEAN and EFFECTIVE low cost protection for all products. Air-filled bubbles cushion fragile products to prevent breakage. Ideal for wrapping or interleaving as it conforms to the shape of contents and does not add to DELIVERY COSTS because it is very lightweight. See our PACKING STATION CUTTERS, page 29, for easy dispensing of this product.

Quickpacker small bubble film 300mm x 35m

- > Proven transit protection suitable for wrapping or void-fill, in a handy pack complete with separate safety cutter
- > Bubble D10mm x H4mm

27 Economy packing stations & anti-fatigue matting

NEW!

Fully functional, high quality economy packing benches supplied flat packed with easy to follow assembly instructions included.

Constructed from 50mm x 20mm welded steel section framework and easily assembled using plated bolts. The frame has a durable grey finish and the table top is 22mm plain finish MDF, set into the frame. Both shelves are 10mm plain finish MDF, also set in for edge protection. The upper and lower mandrels can carry rolls of bubble, corrugated or Kraft paper. The shelves are handy for tools etc.

Economy packing station W180cm x D78cm x H150cm

- > Saves space and time packing goods, with storage facility for cartons, wrappings and equipment
- > Sturdy welded steel section construction with table and shelf edges set into the frame to avoid damage
- > Attractive grey durable finish
- > Low price without compromising quality of construction
- > The packing bench is supplied flat-packed in one carton for convenient handling with easy to follow assembly instructions included
- > Dimensions: W180cm x D78cm x H150cm. Table Height: 92cm. Weight: 60kg.

CODE	PK QTY	PK WGT
EB-251	1	65

Economy packing table W180cm x D78cm x H92cm

- > Saves space and time packing goods
- > Sturdy welded steel section construction with table edges set into the frame to avoid damage
- > Attractive grey durable finish
- > Low price without compromising quality of construction
- > The packing bench is supplied flat-packed in one carton for convenient handling with easy to follow assembly instructions included

39 Rapid hand staplers

**Rapid Tacker ABS Body for type 13 staples
10mm wide x 4-10mm leg**

- > Economically priced plastic bodied stapler
- > Ergonomic, light tool with a low angle handle for a comfortable action
- > Fast and easy loading using fine wire staples for re-upholstering, decorative work and other simpler tasks around the home

CODE	PK QTY	PK WGT
R-13	1	0.310

Rapid Light Tacker for type 13 staples 10mm wide x 4-8mm leg

- > Ideal for light duty lining or labelling timber crates or pallets, uses fine wire staples
- > Recoilless for comfortable operation

CODE	PK QTY	PK WGT
R-23	1	0.550

**Rapid Tacker general purpose for type 13 staples
10mm wide x 6-14mm leg**

- > A professional tool for fine wire staples, giving long service life and capable of over 100,000 actuations
- > Adjustable impact force for harder materials recommended for securing textiles, canvas, leather, posters, netting, label etc.
- > Recoilless for comfortable operation

CODE	PK QTY	PK WGT
R-33	1	0.820

**Rapid tacker industrial for type 140 staples
10mm wide x 6-14mm leg**

- > Robust tacker for case lining or labelling and display work
- > Recoilless for comfortable operation

CODE	PK QTY	PK WGT

41 Carton staplers & staples

Carton assembly and fastening made easy using robust, reliable carton stapling machines and staples, in a variety of sizes to suit all applications.

Hand operated carton top stapler
Staple 32mm wide x 15-18mm leg

- > Uses wide crown carton staples in 15mm and 18mm leg length for secure fastening
- > Four staple depth adjustments to avoid damage to packed goods
- > Weighs only 1.67kg

CODE	PK QTY	PK WGT
PTS-1	1	2.5

Air operated carton top stapler
Staple 32mm wide x 15-18mm leg

- > Pneumatic operation avoids operator fatigue
- > Uses wide crown carton staples in 15mm and 18mm leg length for secure fastening
- > Staple depth adjustment to avoid damage to packed goods
- > Weighs only 1.95kg

CODE	PK QTY	PK WGT
PTS-A1	1	2.9

Foot operated carton bottom stapler
Staple 32mm wide x 15-22mm leg

- > Uses wide crown carton staples in 15mm, 18mm and 22mm leg length for secure fastening
- > Foot pedal operation for hands-free working
- > Sturdy construction for durability, weighs 30kg

CODE	PK QTY	PK WGT

Pallet strapping machines

Fast, efficient pallet strapping is offered by these ergonomically designed mobile strapping machines. The PVS-1 strapping frame can halve the time usually needed for pallet strapping and the semi-automatic action of the TP-601MV keeps operator fatigue to a minimum.

NEW!

Safer, faster and more cost effective

Mobile pallet strapping frame for two vertical straps

- > Robust and simple to use, no mechanical or electrical components to fail, maintenance-free
- > Mobile, easy to position for strapping the pallet, no need to centralise the packing point
- > Convenient, keeps equipment for strapping in one place and machine gantry and probes fold flat for transportation and parking
- > Versatile, suitable for polypropylene or extruded polyester strapping on plastic spools or cardboard cores
- > Suitable for maximum pallet size 1200mm x 1000mm x 1800mm high
- > Customised versions available for unusual pallet sizes or strapping patterns
- > H1940mm x D2000mm x W700mm

CODE	PK QTY	PK WGT
PVS-1	1	120

Semi-auto pallet strapper for 9mm to 15.5mm PP/PET strapping

- > Semi-automatic action reduces operator fatigue, speeds process and is more cost effective
- > Heavy duty swivel wheels and comfortable hand grip for easy movement to pallet
- > Fully retractable strapping probe reduces required working space, is safer and avoids damage
- > Suitable for PP or PET strap in widths from 9mm to 15.5mm on standard 406mm core with option for 200mm or 280mm core sizes. Specify strapping when ordering
- > Simple electronic dial up tensioning and fitted with auto strap ejector and short feed sensor
- > Adjustable friction weld ensures secure strap joint
- > Error message indicator gives user friendly trouble-shooting guide
- > Dimensions: W550mm x D1017mm x H973mm. Probe extends 1250mm
- > Weight: 175kgs. Power supply: 230V/50Hz

CODE	PK QTY	PK WGT
TP-601MV	1	210

Mobile dispenser fitted with pallet probe for PP strap on plastic reel

- > Probe allows easy threading of strap under pallets with no need for bending or stretching by the operator
- > Sturdy 32mm tubular steel construction, weighs 14.5kg
- > Probe stored vertically by chain for ease of movement
- > Extra large tray for seals and tools
- > Heavy duty rubber wheels for durability and easy mobility

CODE	PK QTY	PK WGT
MPP	1	14.5

43 Automatic strapping machines & strapping

Automatic strapping machines allow hands free securing of parcels with automatically tensioned, sealed and cut polypropylene strapping. Operation is either by foot pedal or parcel sensor making these machines ideal for volume throughput. Alternative arch sizes available for most carton sizes.

Automatic strapping machine 230v for PP strap 8mm to 15.5mm

- > Machine is supplied suitable for 12mm wide strapping. A conversion kit is required for other strap widths
- > Easily operated machine with simple maintenance
- > Standard arch size is 850mm wide x 600mm high. Other arch sizes available factory fitted to special order
- > Mechanical tension control
- > Operates 27 cycles per minute with standard arch
- > Uses machine grade polypropylene strapping
- > Weighs 220kgs nett. Dimensions W1430mm x D620mm x H1540mm (with standard arch)
- > Twelve months warranty

CODE	PK QTY	PK WGT
TP-6000-CE	1	225

Automatic strapping machine 230v for PP strap 5mm to 9mm

- > Machine is supplied suitable for 5mm wide strapping. Machines available to order for other strap widths
- > High speed machine for narrow strap
- > Standard arch 550mm wide x 400mm high, other arch sizes available to order
- > Requires less maintenance, has 30% fewer parts, fewer adjustments and fewer components to wear than comparable machines
- > Simple dial adjustment of strap tension
- > Operates 50 cycles per minute with standard arch
- > Dimensions W826mm x D620mm x H1420mm. Weight 160kg
- > Twelve months warranty

Semi-automatic strapping machines & strapping 44

These semi-automatic strapping machines will allow one operator to automatically tension, seal and cut polypropylene strapping to give neat and secure fastening on any size box. Adjustable strap tensioning to suit each package prevents strap damage to softer boxes. Strapping 12mm wide is supplied fitted to each machine.

NEW!

Semi-auto strap machine closed cabinet for 6mm to 15.5mm PP strapping 230v

- > Twelve months return to base warranty, parts and labour
- > Machine is supplied set for and fitted with 12mm strapping but is adjustable for strap width from 6mm to 15.5mm and can operate at up to 24 cycles per minute
- > Easily operated controls including manual tension adjustment
- > Cabinet door conceals loaded strap to give a neater appearance
- > Dimensions W902mm x D586mm x H760mm, weight 85kgs

Extruded polyester strapping dispenser

Heavy duty mobile Strapping Dispenser, with a looped frame for extra strength, constructed from 32mm tubular steel incorporating a strap braking system especially designed for extruded polyester strapping

Mobile dispenser for PET strapping with tool/seals tray

- > Sturdy 32mm tubular steel construction, weighs 12kg
- > Designed for extruded polyester strap on 406mm diameter core
- > Large integral tray for seals and tools with strap brake
- > Heavy duty rubber wheels for durability and easy mobility

CODE	PK QTY	PK WGT
OWM-PET-145	1	12

Woven polyester strapping, buckles & tools

WOVEN POLYESTER STRAPPING equals the breaking strain of steel strapping but is only 16% of the weight for similar specification. Unaffected by extremes of temperature or humidity and easy to handle, with no sharp edges to injure operatives or product. It can be re-used when secured with heavy duty steel buckles or easily scrapped with normal waste. Because it is woven, the strapping tape has bi-directional strength and will not split lengthways. Available custom printed to order. See the PACKER range of tools, dispensers and buckles for use with this product.

Pallet stretch film & dispensers

PACKER tensioning handles to wrap pallets or collate, bundle and secure almost anything with pallet stretch film. Blown film is easier to apply by hand tensioner as it requires less stretching to cling to the pallet tightly due to its "sticky" qualities. Cast film dispenses with less noise but does require more tension to wrap tightly.

Economy dispenser for pallet stretch film
W400-500mm x38/50/78mm cores

- > Robust construction at a budget price
- > Twist grip handle for tension control

63 Mobile pallet stretch wrappers & film

Dramatically reduce operator fatigue by using these effective, economic mobile pallet stretch wrappers. The operator can wrap pallets up to two metres high, keeping consistent film tension, without any crouching or stretching. Mobile pallet wrappers remove the need to shift pallets to a central wrapping point and their controlled film tension saves material. The battery operated model, with push button controls, offers all the above plus film pre-stretch for maximum saving.

Mobile manual pallet wrapper wraps to 2m adjustable film tension

- > Significant reduction in operator fatigue with no need to crouch or reach high to apply film
- > Controllable tension to give even wrap and save film
- > Machine can be easily moved to the pallet removing the need for a centralised packing area
- > Dimensions W560mm x D1150mm x H2100mm

CODE	PK QTY	PK WGT
MSW-M	1	85

Mobile battery pallet wrapper wraps to 2m with adjustable pre-stretch film tension

- > Significant reduction in operator fatigue with no need to crouch or reach high to apply film
- > Push button control for movement, re-charge battery 230v mains. Each battery charge wraps about 70 pallets
- > Powered pre-stretch tension to give even wrap and save film
- > Machine can be easily moved to the pallet removing the need for a centralised packing area
- > Dimensions W560mm x D1150mm x H2100mm

CODE	PK QTY	PK WGT

1525-1525	1	20

PRE-SET PROGRAMMING to maintain load integrity and film saving is one of the advantages of our keenly priced pallet stretch wrappers. The 1.65 diameter soft start/stop turntable spins at 12 rpm, can handle loads up to 1650kgs and is reached by the optional load ramp. Standard machines wrap to a height of 2.0m with adjustable film tension. Film is easily loaded and maximum saving is achieved with the pre-stretch model. The on-screen trouble shooting feature on the E2 and EP2 models aids reliability. Options to suit large or non-standard loads are available to order for all machines. All Packer pallet wrappers conform fully to the relevant UK health and safety regulations. Machine film illustrated is for use with our semi-automatic pallet stretch wrappers where cast film is usually preferred because the rolls dispense quietly without leaving residue and the machine is able to stretch the film to allow it to cling tightly to the pallet. Lease option available on this equipment.

Pallet wrapper spring brake film tension wrap height 2.0m

- > Reliable build quality, supported by a 12 month warranty
- > Manually adjustable film tension
- > Two automatic wrapping programmes
- > Standard turntable handles up to 1650kg load and is 1.65m dia
- > Option of horse-shoe turntable and 2.5m high extended mast

Matting

Avoid the cost of transporting and storing traditional bubble film, the AirPouch Express 3™, manufactured by a world leader in automatic bag packaging machinery, has its own internal air source and offers all the benefits of AIRPOUCH CUSHIONS protection on demand! This compact machine, size L52cm x W30.5cm x H36cm, weighs only 13.7kg and can sit anywhere. The Airpouch cushions can be produced from reprocessed or standard film, and are 99% air giving considerable material savings against other void fill products and adding minimally to transport costs. Biodegradable film is available to special order.

The system is available for a modest monthly rental. Buy only the film you need, each box can inflate to over 8 cubic metres of void-fill and the cushions are easily separated thanks to the unique E-Z Tear perforations.

Airpouch Express 3 air cushion machine

- > No capital outlay, the machine is available for a modest monthly rental without any film take up commitment
- > One month FREE trial with purchase of one box of film
- > Easy to use table top system to produce chains of protective air cushions on demand. Cushions are easily separated with their unique EZ tear perforations. The machine requires only 230v power, as it incorporates an internal air source
- > User friendly controls and simple film load direct from the box avoiding double handling. Each box inflates to over 8 cubic metres of void-fill, saving storage space required by conventional fillers
- > Air cushions are lightweight, clean, non-abrasive and add minimally to transport costs whilst providing excellent product protection or void-fill
- > Compact machine, dimensions 52cm x 30.5cm x 36cm weighing 13.7kg.
- > Rental shown is for 3 months, payable in advance

ExpandOS™ triangles have 38 edges and holes that interlock to prevent them slipping, keeping your product securely enveloped and providing exceptional performance. The multiple contact points mean impact shocks are absorbed and products being transported are kept safe and secure by the blocking, bracing and cushioning effect provided. Each triangle resumes its original shape providing continuous protection and allowing ExpandOS™ to be reusable. This innovative 100% eco-friendly void fill is punched from SFI Certified paper. You can learn more about ExpandOS™ by viewing our micro-site www.buyexpandos.co.uk
