Distribution Blocks

Product Description

RS PRO Distribution Terminal Blocks save space and increase wiring efficiency of large incoming cable supplies by offering one large input terminal and multiple smaller outgoing terminals:

- RS237-4286 is used to electrically connect two terminal blocks together.

Mechanical Specifications

Jumper link material	Insulated Tinned Copper
Mounting	Remove knock-out in Terminal blocks, Insert Jumper and tighten clamping screws. Note that the jumper link must be angled forward to allow access to the block for incoming cable
