

FEATURES

- External open-ended circlips
- Type E
- For use with 6mm shafts
- Fits to 4mm groove diameter
- Ring thickness of 0.7mm
- Outside ring diameter of 8.8mm
- Tough and durable stainless steel construction
- Suitable RS circlip pliers available

Stainless Steel E Type Circlip, 6mm Shaft Diameter, 4mm Groove Diameter

RS Stock No.: 209-6851

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Use these compact Type E external circlips as an alternative to larger fastener assemblies by installing them tightly around shaft or bore elements. Insert their tips into an RS external circlips plier, squeezing the handles to open the ends. Finish the installation by installing them over the shaft groove.

Two circlip kits are available

Kit 1 (RS 278-360) contains small sized clips and Kit 2 (RS 278-376) contains large sized clips in both cases.
