RS Pro Fahrenheit/Centigrade Dial Magnetic Dry Thermometer Suitable For Various Applications

Product Details

66mm Magnetic Thermometer

Designed to indicate the surface temperature of ferrous surfaces
Ideal for fixing to radiators and flat, ferrous surfaces
Held in place by a strong, circular magnet
Glass Window

Thermometers - Surface Contact Type

66mm diameter thermometers with Bi-metal movement.

Specifications:

Thermometer Type	Dial
Fixing Method	Magnetic
Suitable Applications	Ferrous surfaces, Radiators
Temperature Scale	Both
Filling Type	Dry
Case Material	Steel
Case Diameter	63mm
Maximum Temperature Sensed	+120°C
Minimum Temperature Sensed	0°C
Temperature Sensitive Range	0 → +120°C
